

**CHESTER COUNTY EMS COUNCIL INC.  
RECOMMENDATION FOR CONSIDERATION**

Board Meeting Date: 05/09/2012

VTR#: 12-4                      Subject: CEEMS EMS Response Policy  
Committee/Task Force: CEEMS Operations Committee

Recommended Goal     Recommended Policy Change     Other:

**Recommendation/Motion:** Recommendation that the Chester County EMS Council adopt as a Operational Policy the following response guidelines for EMS units to the incidents according to the CAD designation. (See attached)

**Rationale [Background]:** The recommendation comes as a County substitute the following policy for the State Basic Life Support Response Guidelines adopted as Policy for the CEEMS Council in 2011. This recommendation will become policy in place of the State Policy for response.

**Medical Review [Concerns]:**

**Fiscal Concerns:**

**Educational Concerns:** There will need to be an initial effort at all services as to the requirements of the new policy. A later public education initiative needs to be planned to explain to the citizens the EMS response policy.

**Plan of Implementation:** Upon approval, each service would receive a spreadsheet of dispatch types and the recommended EMS response mode.

**Board Meeting Comments/Concerns:**

The Board requested clarification as to whether this is a policy or guideline or both. In addition the wording needs to be more clear and specific. The Board also requested that this be reviewed by the MAC committee and any background data to support this be submitted. It was sent back to committee on 5/9/2012.
