# Paoli Hospital 7th Annual Trauma Symposium

**November 10, 2015**

**5:30 – 9:15 PM**

*Penn State Great Valley  
Conference Center  
Malvern, PA*

## Program Description

Paoli Hospital's 7th Annual Trauma Symposium will feature presentations on the Traumatized Bariatric Patient; Advancements in Thoracic Trauma; Disaster Preparedness and a Panel Discussion on the Journey of a Trauma Survivor.

## Target Audience

The program is designed for physicians, nurses, physician assistants, pre-hospital emergency medical service personnel, and all other interested allied health care professionals.

## Learning Objectives

At the conclusion of the symposium the participants should be able to discuss the most current trends in trauma care related to bariatric implications for trauma, thoracic trauma and disaster preparedness. Additional objectives include:

- Identify multiple transitions required to ensure positive patient outcomes and provide feedback on specific patient outcomes.
- Identify recent advances and developments in thoracic trauma management and discuss their application to clinical practice.
- Describe the social, emotional, ethical, and personal issues that arise during the care of trauma patient and the impact on care givers, patient and family.
- Demonstrate enhanced communication with patients, family members and colleagues.
- Discuss clinical issues specific to the bariatric trauma patient population and recommended care management strategies
- Analyze recent advances and developments in disaster preparedness in relationship to care of the critically injured.
