Little Creek, DE 19961**

Standard Operating Guideline - 01-01 Emergency Evacuation on the Fire Ground

Purpose: To establish an emergency evacuation procedure for the fire ground.

Scope: All fire department members.

1. Emergency Evacuation: Anytime it has become apparent to the Incident Commander that there may be a threat to life or bodily injury to firefighting personnel, the Incident Commander will declare an emergency evacuation and the following will be done:
 - A. 5 Long blasts of the apparatus air horn
 - B. Notification of Kent Center to activate the emergency evacuation signal
 - C. All personnel will report back to the unit they responded on to be counted
 1. The OIC of each unit will ensure all of their crew is accounted for and report back to the Incident Commander,
 2. If anyone is missing that information must be forwarded to the Incident Commander so a search can be conducted.
2. Once the area has been evacuated the Incident Commander will appoint one (1) person for each side of the structure that has an ingress/egress point to make sure no one enters.
