Standard Operating Guideline #98-6 Riding on Fire Department Apparatus

Purpose: This standard is designed to set guidelines for riding on fire department apparatus.

Scope: All fire department personnel.

1. All personnel will ride in an approved seat on all apparatus.
2. Whenever feasible all personnel will utilize safety belts while riding on all fire company apparatus.
3. Personnel shall not ride on the tailboard of any piece of apparatus at any time.
4. Personnel will only ride on the rear of the brush truck while conducting fire extinguishment operations.
