

Probationary Membership

Probationary members at MCFC have a number of expectations that must be met:

- 1) Probationary period: 12 to 24 months
- 2) Probationary members must serve on an active committee – One option is the public relations committee which offers many opportunities to be active in the community and get to know other members.
- 3) In order to achieve active membership status, probationary members must respond to 50 calls per year
- 4) In the first year new members usually complete approximately 124-160 hours of training depending on their involvement in fire/EMS operations.
- 5) Probationary members who remain “in good standing” with the company and have met all other probationary requirements are eligible for active membership after 12 months. A majority vote by the active membership is required to become an active member.
- 6) Probationary members who enter the company as junior members must hand in report cards to be reviewed and maintain a C average.
